## NOTICE OF STREET CONSTRUCTION AND ROAD CLOSURE

The City of Grimes will be reconstructing SE 19<sup>th</sup> Street from IA 141 to the Grimes corporate limits and the City of Johnston will be reconstructing NW 62<sup>nd</sup> Avenue from the Grimes corporate limits to NW 103<sup>rd</sup> during this construction season.

**Both the Grimes and Johnston projects are scheduled to begin on Monday June 23, 2014.**

The Grimes portion of the project is under contract to Concrete Technologies Inc. and the Johnston portion of the project is under contract to Corell Contractors. The City of Grimes and the City of Johnston are coordinating construction.

During construction, SE 19th Street will be closed to two-way through traffic from IA 141 to NW 103<sup>rd</sup> Street in Johnston. **Local traffic to Princeton Subdivision will be maintained from IA 141 to all properties in Princeton Subdivision.**

In Grimes, SE 19th Street will be removed and replaced with a 4 lane boulevard with dedicated left turn lanes and a new trail will be installed along the north property line of SE 19<sup>th</sup> Street.

Construction on the Grimes project will be done in three phases.

During Phase I, SE 19th Street is closed to traffic from SE Destination Drive to NW 103<sup>rd</sup> Street. **SE 19th Street from IA 141 to SE Destination Drive is open to local traffic only.** In this phase, the east bound lanes will be constructed from IA 141 to Grimes corporate limits and west bound lanes will be constructed from SE Destination Drive to Grimes corporate limits. SE Destination Drive will be open to traffic and SE Miede Drive will be closed to traffic. SE 19<sup>th</sup> Street from IA 141 to SE Destination Drive will not be removed and will remain open to traffic during construction of Phase I.

Phase II construction will begin when two-way traffic can be placed on the new east bound lanes constructed in Phase I. During Phase II construction, the west bound lanes of SE 19<sup>th</sup> Street will be graded and paved from SE Destination Drive to IA 141. SE Destination Drive will be closed to traffic and SE Miede Drive will be open to traffic. During Phase II, Princeton Drive will remain open to traffic with temporary surfacing and will be replaced one half at a time.

After Phase II construction is completed, Phase III will begin and left turn lanes will be paved. All work in phase III will be done under traffic.

No thru traffic on SE 19<sup>th</sup> Street will be allowed until the Johnston project is completed.

Please call Jerry Byg at FOX Engineering 1-800-433-3469 or email [jnb@foxeng.com](mailto:jnb@foxeng.com) with questions about the project.

Sincerely,

Jerry Byg  
Project Manager
